DUDEK H&H

Dudek H&H was established in 1984 in Kotórz Mały. The company was formed by two brothers – Henryk and Hubert Dudek. Today, this modern and functional window and door manufacturing plant is managed by Henryk Dudek and his family, and thanks to the skills of its employees and applied technologies, it gains recognition from Polish and international customers. It is best evidenced by numerous awards and diplomas received by the company.

EURO WINDOWS

SLIDING DOORS „HS”

DUDEK H&H's windows are made to individual customers' orders in chosen shapes, colours and sizes. They have many advantages. They are elegant, durable and easy to use. They ensure excellent interior lighting, tightness, thermal insulation and sound insulation. Our services include taking measurements, fabrication of joinery, transport and installation.

OKNA SKANDYNAWSKIE

Okna skandynawskie DUDEK H&H są produkowane z drewna klejonego warstwowo, zabezpieczonego przed warunkami zewnętrznymi poprzez impregnację i nanoszenie powłok malarskich. Okna skandynawskie wytwarzane są z wykorzystaniem okucia takich firm jak Spilka As, IPA, Assa Abloy. Wszystkie materiały użyte do produkcji okien skandynawskich są zgodne z odpowiednimi normami europejskimi oraz odpowiednio kontrolowane. Produkcja okien skandynawskich firmy DUDEK H&H jest okresowo audytowana przez NDVK a okna Top Swing i drzwi balkonowe posiadają stosowny certyfikat NDVK.

DUDEK H&H's Scandinavian windows are made of engineered wood protected against external conditions by impregnation and application of paint coatings. Scandinavian windows are manufactured using hardware of such manufacturers as Spilka As, IPA and Assa Abloy. All materials used for the manufacture of Scandinavian windows meet the relevant European standards and are properly controlled. The manufacture of DUDEK H&H's Scandinavian windows is periodically audited by NDVK, and Top Swing windows and balcony doors have the NDVK certificate.

Die skandinavischen Fenster von DUDEK H&H sind aus Schichtholz gefertigt und durch Imprägnierung und Beschichtung gegen äußere Einflüsse geschützt. Skandinavische Fenster werden unter Verwendung von Beschlägen von Firmen wie Spilka As, IPA, Assa Abloy hergestellt. Alle Materialien, die bei der Herstellung von skandinavischen Fenstern verwendet werden, müssen den einschlägigen europäischen Normen entsprechen und entsprechend kontrolliert werden. Die Produktion der skandinavischen Fenster bei DUDEK H&H wird regelmäßig von NDVK geprüft und unsere Top Swing Fenster und Balkontüren sind NDVK-zertifiziert.
